2013 PAVEMENT PRESERVATION PROGRAM MICROSURFACING

Intermountain Slurry Seal, under contract with the City of Tucson Department of Transportation (TDOT), will microsurface three different sections of City roadways on Saturday night, May 4, 2013, through Sunday, May 5, 2013. The work will take place from 7 p.m. Saturday through 8 a.m. on Sunday. This work is part of the City of Tucson's 2013 Pavement Preservation Program.

Crews will microsurface a short section of southbound Craycroft Road approaching Golf Links Road. One southbound travel lane will remain open during this work.

Crews will microsurface a short section of northbound/westbound Kolb Road/Grant Road through the intersection of Tanque Verde Road. One travel lane will remain open during this work.

Crews will microsurface Speedway Boulevard from Campbell Avenue to Alvernon Way. One travel lane will remain open during this work.

Business and residential access will be maintained during this work, expect for when heavy equipment is in front of a driveway. The traveling public can expect delays when driving in these work areas. Please obey all traffic control signs and watch for construction personnel and equipment in these work areas.

The pavement improvement project is part of the Fiscal Year 2013 Mayor and Council approved Pavement Preservation Program, a one-year, \$20 million street rehabilitation program to resurface arterial, collector and residential streets. The funding was made available by restructuring the Fiscal Year 2013 Highway User Revenue Fund (HURF) debt, the increase of HURF revenue and General Fund money.
